POST

Sql for create post:

```
SELECT * FROM posts WHERE domain='$post_domain' ORDER BY date  
DESC
```

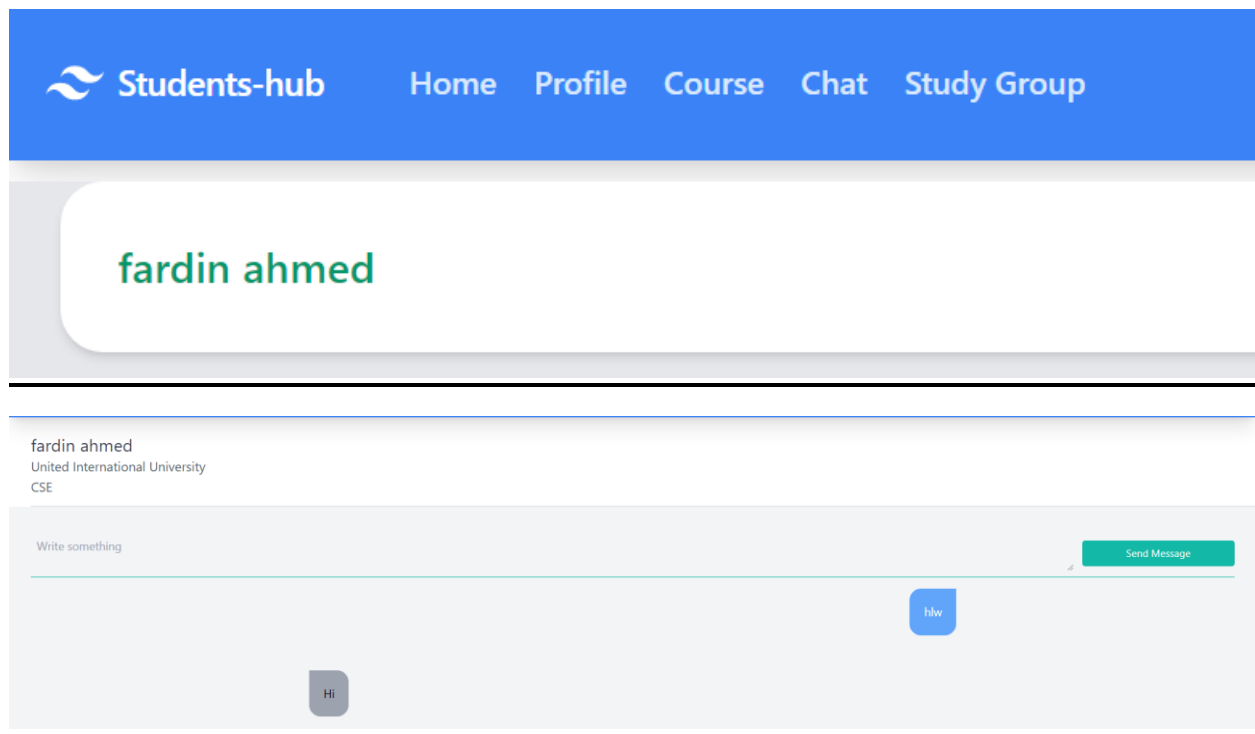

Function view_post

```
SELECT * FROM posts WHERE p_id=$id
```

Function display_data_by_id

Private Chat:

Sql for private chat:

```
SELECT * FROM messages WHERE (sender=$current_user_uid OR  
receiver=$current_user_uid) AND group_id IS NULL ORDER BY  
msg_id DESC;
```

Chat/index.php

```
SELECT * FROM ( SELECT * FROM messages WHERE group_id IS NULL)
AS msg WHERE (sender=$sender_uid AND receiver=$receiver_uid)
OR (sender=$receiver_uid AND receiver=$sender_uid) ORDER BY
msg_id DESC";
```

Private.php

```
SELECT * FROM users WHERE u_id=$receiver_uid
```

Private.php

Future Plan:

We will deploy our web site globally in near future after adding more feature. However, there are lots of scope of improvement. Many bugs needed to be solved
